Greater Nottingham Strategic Plan Growth Options

Response to Question INT2: Evidence Base relating to R05

I object to the proposed garden village at Orston/Elton On The Hill for the following reasons:

- It is an inappropriate development.
- It will harm the setting of the Orston Conservation Area.
- The A52 is already heavily congested and dangerous, especially at the Elton On the Hill junction.
- Disruption to the SSSI site at the Plaster Pits.
- Extra traffic will go through our villages on unsuitable roads
- I regularly walk in this area and the development will be visible from walks along the Smite and many other places.
- I have chosen to live in a rural setting with open countryside and the Greater Nottingham proposal will destroy that reason.
